DAILY THOUGHT.

"Perhaps one of the deepest problems we have to deal with is this one—the economy of time—the holding of each day as a trust for God and the race."

A peculiar policy of the city administration is never to enact a law to prevent anything, but rather to wait until the thing is done and then have some way to punish it. This plan is followed in many things and is one of the secrets of the city's shortcomings. When the "drain pipe ordinance" was before the council a few nights ago, City Engineer Wilcox suggested that it be so amended as to prevent people from running garbage and filthy water into the gutters through the drain pipes. The proposed change, which would have been a good one, albeit one that would cause a great many people a serious inconvenience, for the gutter is the only place many ever think of running filthy water, was rejected because it was suggested that the proper way was to specify nothing about what was to be run into the gutters, but if people drained garbage into them, and there was any one not sufficiently used to it to complain, let them get a warrant for maintaining a nuisance, and leave it to the courts to settle. On the same principal there might as well be no fire limits law, but wait until a man puts up a frame house where it would be a menace to the surrounding houses in case of fire, and then prosecute him. If the city council will not compel people to connect with the sewerage and use that as a conduit for filth, they ought at least to have enough regard for the health and safety of the multitudes, to prevent their running filth into the gutter. But under this new ordinance people can run anything they choose into the gutters.

The constitution of Kentucky, says the Louisville Commercial, provides that "not more than two counties shall be joined together to form a representative district," and yet the legislature in the act of May 3, 1893, establishing a representative district, deliberately put the three counties of Clay, Jackson and Owsley together to form the 71st representative district; the three counties of Breathitt, Lee and Magoffin to form the 92nd district; the four counties of Bell, Harlan, Leslie and Perry to form the 93rd district and the three counties of Knott, Floyd and Letcher to form the 97th district. The ratio of representation this year is 21,471. The population of the 71st legislative district, Clay, Jackson and Owsley, is 31,709. The population of the 92nd, Breathitt, Lee and Magoffin, is 24,316; the population of the 93rd, composed of Bell, Harlan, Leslie and Perry, is 40,108, and the population of the 97th district, composed of Knott, Floyd and Letcher, is 33,428. Butler with 15,896, and Edmonson with 10,080 are in one district and Elliott, with 10,887, is put with Carter, with 20,228 to form another; while Jessamine, with 11,925, Larnie, with 10,764, Meade, with 10,553, McLean, with 12,448, Woodford with 13,134, Anderson with 10,051 and Boone, with 11,170 each, constitutes a separate district and each has a representative.

Mayor Lang may be right in his opinion of the new drain pipe ordinance. It seems, however, that the cost to property owners who were complaining that they had to pay such exorbitant prices to have drain pipes replaced by paving contractors, will now be much greater. Under the old law the contractors did not have to put back the pipe. Under the new, they are compelled to put it back free of charge, and of course, to meet the additional expense of taking up and putting down the pipes, they will figure a pipe in for every twenty-five feet if they want to be sure of protection. If there doesn't happen to be a pipe where they have figured one, however, besides getting the benefit of the increase in the amount of the bid arising from such calculation, they are permitted to collect extra from the property owner. Mayor Lang seems to think that the contractors are making the complaint against the ordinance, but the contractors seem to be well pleased with it, and admit that it gives them a great advantage over the old way.

All persons in the naval service have been enjoined by the department from making public statements relative to the Schley-Sampson controversy. In issuing the order Secretary

Long made a wise move. All statements given out now can in most instances be merely opinions based on hearsay, and it were better to express no opinion at all. The whole subject will be well thrashed out in due time. Schley men who do not profess to think a fair trial will be accorded the Admiral, are injuring their cause by the expression of such doubts. Such men as they who will conduct the inquiry could not afford even were they so disposed, to withhold by any means, the justice that is due to all concerned.

The quotation in yesterday's Sun relative to the school superintendent's trouble in Knox county was inadvertently credited to the Lexington Leader, and should have been credited to the Herald. The Leader is one of the leading Republican papers in the state.

Lord Roberts, who "ended" the war in South Africa, is to receive half a million dollars for his services. A great many men would have done just as well, if not a little better, for much less that amount.

The Democratic county committee meeting was nearly as good as the Democratic county primary. But it will take a great deal of "treatment" to cure the "sore heads" between now and the election.

There may be some excuse for stealing pistols and razors, but for the man who steals a pair of trousers or clothing of any kind this kind of weather, there should be no balm in Gilead.

Nearly \$800 has been donated for the Memphis Commercial Appeal's Schley medal. The paper announces that it will not be designed by the experts of the navy department.

The kindly spirit engendered by the Democratic harmony now existing in McCracken county will be heard from later on.

Can any man in Kentucky who gets on a little tear occasionally be justly accused of "neglecting his duty"?

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used every thing known to the profession without relief, until I was induced to use FOLEY'S KIDNEY CURE. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. For I can honestly state I have prescribed it in hundreds of cases with perfect success." J. C. Gilbert.

THE STORK EXPECTED.
Frankfort, Ky., July 1.—The fact that Governor Beckham has declined to make engagements for the near future has led to the interesting intimation that the stork is hovering over the executive mansion.

DEATH OF EX-CONFEDERATES.
Memphis, Tenn., July 31.—Judge John L. T. Speed died yesterday, aged eighty-two. He was an officer in the Mexican war, brigadier general in the provisional army of Tennessee after the secession of the state, and after the war served on the Tennessee supreme bench.

Natchez, Miss., July 31.—Captain Lyman G. Aldrich, distinguished ex-Confederate soldier, member of the executive board of control, Endowment Rank, Knights of Pythias, and a prominent Mason, died here of paralysis.

COOL DAYS IN MICHIGAN.

GAN AND HOW TO ENJOY THEM.

Why stay in the sweltering heat where you are, when by a few hours travel on a fast train a delightfully cool temperature may be enjoyed with nights in which a blanket is necessary.

If you can afford to go, consider the advantages of a few weeks stay at Petoskey, Charlevoix, Traverse City, or some other of the numerous cool, delightful summer places in Michigan reached by the Pere Marquette railroad. The best train leaves Chicago at 7:30 p. m. every day except Sunday, with Pullman sleeper, and arrives at the Northern resorts early next morning. Your home agent can sell you excursion tickets to the Michigan resorts at reduced rates. Ask him about it, and get a copy of the pamphlets issued by the Pere Marquette Co., describing the various resorts, with hotel rates, etc.

If you cannot get one at home send to the Michigan Central railroad ticket agent at Chicago, or direct to H. F. Moeller, G. P. A., Detroit, Mich.

Observations

....at Random

A perplexing question at present is "why, this great waste of heat?" It seems a pity that it could not be utilized in some way towards tempering next winter's cold. Think of the hot air wave that meets you as you ascend toward the second floor of your home, and utterly incomprehensible as it may seem to you now there will come a day next January when such a "warm greeting" would be the most welcome you could have. Now, when will science arrange it so that all the summer's heat can be stored up, and utilized during the coming winter? It would help us to bear these ill more gracefully if we realized we were not suffering needlessly. Who would mind the thermometer's rise to 113 or more if it would save on the coal bill next winter? Just break a bottle or so of this "sublimated heat" and you would be secured against the most chilling blast without further ado or trouble. Well, the Twentieth century before it ends, may probably show some such achievement of science, who knows? But it is a pity to have 1901 so wasted.

A very amusing incident occurred on a Broadway car last night. A countryman boarded the car at the river and after seating himself comfortably and taking a liberal chew of long green he began to inspect the car and its occupants. He caught sight of the new registers in the car and supposing them to be clocks pulled out his Waterbury and set it according to the register. He probably had seen few clocks and has not been the possessor of a watch long judging from the way he handled his ticker. When Sixth street was passed the conductor began to ring up the fares and with every pull the hand would spin around one notch. He probably thought he had no business on a car where they kept such peculiar clocks for he sneaked off the first time it stopped.

Marvelous Rehabilitation of Galveston.
Though storm and flood did their terribly destructive work in Galveston, Tex., only such a little while ago, the undaunted citizens of the stricken town have done much toward restoring it to its former good condition. Especially for a southern town is its rehabilitation already somewhat marvelous.

The greatest healer of modern times is BANNER SALVE for cuts, wounds, sores, piles and all skin diseases. It is guaranteed. Use no substitute.

Pictureque Scenery Enlaid.
The well known spot called La Perle du Rhone in Switzerland, where the river disappears only to reappear a few yards further on, has been gradually changing its aspect. Factories and buildings have been erected on its shores. The picturesque scene has been blasted with dynamite and the former magnificent scenery ruined.

Why Davitt is Left-Handed.
In the matter of handwriting it is interesting to know that Michael Davitt, who lost his arm in a manufacturing when he was only ten years of age, writes a singularly clear hand, only distinguishable by his superiority from the ordinary writing of people who have both hands but only use the right for writing. Mr. Davitt teaches his children to write with both right and left hands, a custom invariably followed by Japanese schools.

Thos. W. Carter of Ashboro, N. C., had kidney trouble and one bottle of FOLEY'S KIDNEY CURE effected a perfect cure and he says there is no remedy that will compare with it. J. C. Gilbert.

New Bridge for Bosphorus.
A new bridge is about to be built across the Bosphorus, bearing the name of the sultan, Abdul Hamid. It will be constructed of granite and metal by the Bosphorus Railway company, which designs a junction between the railways of Europe and the transatlantic railway of Bagdad, now being built by the Germans. The narrowest dividing line of sea has been chosen for the point of construction.

Hard of Hearing Rescued.
J. M. Bell of the Canadian geological survey department has just returned to Ottawa a man a few years older than when he left, but with a new lease on life. He has been suffering from deafness for many years, but after using Winsted's Laxative Phosphate he has been able to hear again.

President Cassatt's Private Engine.
President A. J. Cassatt of the Pennsylvania railroad has not only a private car, but also a private engine. The locomotive has always been used for that purpose, and has had the same engineers since the days of President Thomas A. Scott.

War Against Health Foods.
The Michigan Millers' association has started a war against the so-called "health foods" which are so numerous and manufactured in that state. They alleged that some of these foods are adulterated with injurious substances.

Isn't it Worth 25c. To Be Cured of Constipation

People who suffer from habitual constipation with all its attendant ills, clogged stomach and bowels, sluggish liver, heartburn, indigestion, and thin and impure blood, are too apt to believe that the only remedy is violent purgatives. The contrary is the case. Such cathartics, even if they do move the bowels, are irritating and griping, leave the stomach inflamed and enfeebled and the constipated condition recurs with greater difficulty of cure and the sufferer constantly growing worse. There is a laxative that moves the bowels without pain or griping, cleanses the stomach, sharpens the appetite, stimulates the liver, strengthens the nerves, and purifies the blood, while its marvellous tonic properties tone up the entire system and keep it healthy.

Laxakola Does It

Its remarkable tonic properties reach every organ—the liver, kidneys and stomach, nerve, heart and brain—and removes the cause of your debilitated condition. This is the only way to secure an absolute and permanent cure.

Laxakola is the only medicine for babies, is purely vegetable and its action is gentle, speedy and effective. For coated tongue, simple fevers, colic, chills and languid feeling it is the ideal medicine.

It tastes good. **EP Children like it and ask for it.**
Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, etc., and for free sample to LAXAKOLA CO., 112 Nassau Street, N. Y., or 324 Dearborn Street, Chicago.

Healthy Old People
say the main thing to do is to keep the stomach, liver and bowels in order if you want to keep well and live long. Good physicians say the same thing, too. The remedy called

RIPANS TABULES

while not mysterious or miraculous in its curative qualities, is a simple formula prescribed by the best physicians for disorders of the digestive organs. Just little Tabules, easy to take, easy to buy and quick to act. If your trouble is Dyspepsia, Bilioussness, Headache, Dizziness, Constipation, Heartburn, and the like, no need of calling a physician. Ripans Tabules contain exactly what he would tell you to take. Permanent cure follows a fair trial. No uncertainty about it.

ONE GIVES RELIEF.

There is scarcely any condition of ill health that is not benefited by the operation of Ripans Tabules. They are not a medicine, but a food. They are not a laxative, but a tonic. They are not a stimulant, but a restorative. They are not a cure, but a remedy. They are not a secret, but a fact. They are not a mystery, but a science. They are not a magic, but a truth. They are not a miracle, but a reality. They are not a dream, but a fact. They are not a fiction, but a truth. They are not a lie, but a fact. They are not a hoax, but a truth. They are not a trick, but a fact. They are not a fraud, but a truth. They are not a scam, but a fact. They are not a con, but a truth. They are not a swindle, but a fact.
